At their June meeting, your International Board
of Directors studied more than twenty logo
designs submitted from a variety of sources.
Some were from members, some from friends
and spouses, some from our professional advertising
agency.

And here it is the winning design, our organiza-
tion's new logo — gracefully entwined treble
clefs. The design was done by our corporate
advertising agency, Brown Bloyed of Tulsa. It was
created specifically for us but was one of over 400
entries submitted to the seven-state Graphix '22
art competition, where it was awarded first place
for Best Corporate Identity in the show.
