Sweet Adelines Stories: I Began to Laugh with Joy!

My first 10 years singing with Sweet Adelines International was in a small hometown chorus, which ultimately dissolved. I traveled an hour each way to join the next closest chorus, and within three years, we were International contenders.

I was the first one in the chorus to enter the stage at International contest in Houston, Texas (USA). The second I stepped on that stage (there was no curtain), I began to laugh with joy. I never imagined I would ever be competing on an international stage. It was such an exhilarating experience.

Thank you, Sweet Adelines International!
